#### **FOREWORD**

As we stop to ponder over the past two years at Lasell, we discern the many valuable experiences that have enriched our lives here.

First and foremost are the intellectual experiences which have impressed upon us the importance of study. The knowledge we have gained from both books and courses will serve as a light to brighten our paths in the future.

A strong sense of responsibility and duty keynotes the qualities developed by our well-rounded program of extra-curricular activities. Our experiences as members of the various organizations at Lasell have, in some ways, molded our characters and taught us useful lessons in leadership.

Perhaps the most valuable of all our experiences, though, has been friendship. Learning to adjust and get along with our fellow students has been rewarded by amiability on their part. We have, among other other things, been enrolled in a two-year course in humanity.

So, as we emerge from Lasell, we carry with us the definite imprint of our past experiences. Whatever we may do in the future is bound to carry the reflection of our days here.

#### **DEDICATION**

We came from our secure, sheltered worlds into a whirling maze of new faces, new places. We came bewildered and unsure, anxious to meet our new classmates.

We saw a welcoming smile, a bright face, a busy friend who, with interest and pleasure, was always ready to help us.

The Class of 1959 is grateful for her understanding and ready encouragement. Having now, with her help, attained our goal, we are departing. In appreciation we dedicate this book to Miss Muriel McClelland.

### IN MEMORIAM HELEN COWELL BAILLY

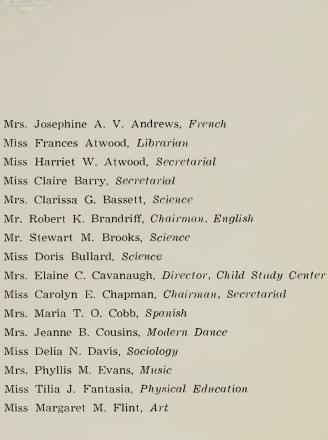

With deep shock and sincere regret we learned of the sudden death of Madame Helen C. Bailly on October 23, 1958.

Madame Bailly came to teach at Lasell in 1937. She received the B.A. and the B.M. degrees from Wells College and her M.A. from Wellesley College. As an instructor in French, Madame Bailly also undertook the task of advisor to the French Club.

Those who knew her personally, both students and faculty, will long remember Madame Bailly for her conscientious devotion to her teaching duties. Her deep interest and concern for each student made her more than just a teacher to them.

We take this opportunity to recall with sorrow the passing of one of our faculty.

Take Care of the Pennies — and — the Dollars Will Take Care of Themselves!"

--OLD PROVERB

That's an age-old do-it-yourself formula for building a bank account. It applies perfectly to our modern systematic savings plan by which you accumulate Serial Shares worth \$200. each at maturity paying only \$1.00 per month for each share. A  $3\frac{1}{2}\%$  interest rate makes these shares grow up a lot faster. For example: Save \$5.00 a month regularly this way and you will have \$1,000. in about 159 months.
